PRIMARY & SECONDARY-JANUARY-2026

Parent-Management Meeting Karachi Campuses

A Parent-Management Meeting was held across our seven boys campuses in Karachi, attended by the CEO, the Director of Education, and other head office officials. They met with fathers and guardians to discuss students' academic progress and listen to feedback and concerns, aiming for the continuous improvement of campuses' operations and academic outcomes.

Annual Physical Activity Day 2026

This year, our Annual Physical Activity Day for the Karachi campuses was held on the 10th of January. The fitness-filled event was attended by students and staff from the campuses as well as the head office. Participants enjoyed a variety of sports activities, including short-distance races, spoon races, and tug of war. Winning teams were awarded trophies and medals, while certificates of participation were presented to all students, making the day both energetic and rewarding.

Computer Practical Examination

Take a look at some moments from the Final Term Computer Practical Examination across our campuses. Students performed their practical tasks in the computer lab under proper supervision, ensuring a disciplined and focused examination environment.

Remedial Classes – Saturday Sessions

Our campuses conducted remedial classes on Saturdays to provide additional academic support to students. These sessions focused on strengthening core concepts and offering personalised guidance in a small-group setting. We appreciate the dedication of our teachers and the active participation of our students in making these classes effective and meaningful.

Miscellaneous Activities | Primary Campuses Sindh & Punjab
